OTHER COMMENTS*****

Water will be used for irrigation of lands within the Central Utah Water Conservancy District service area.

Applicant proposes to leave the 772.92 acre-feet of water available under these 156.46 shares of stock in Utah Lake to supply prior rights in Utah Lake and the Jordan River and then by exchange to store an equal quantity of water (when not needed to supply prior rights on the Provo River) in Jordanelle and/or Deer Creek Reservoirs. The use of this water for replacement purposes to Utah Lake will reduce the quantity of water the Central Utah Project must replace to Utah Lake from the Strawberry Reservoir Enlargement under approved Exchange Application Number E398 (55 Area).
